Fire Chief Honey and his men had a busy spell of it just after the noon hour Friday, when they had to attend to two small fires. The first call came at 12:40 and was for a fire in the back room of the Smith & Cummings store. Starting from a cigarette or under the gas stove, the fire burned a sizable hole in the floor and entered the partition when the fire ladies arrived. The contents of two hand extinguishers was sufficient to smother the blaze. At 1:15 squad A truck answered a still alarm to the Tony Corey place just across the railroad track on Prospect street, where a fire, started by children with matches, so the women say, had burned the lace curtains and blind and scorched the paint of the woodwork of one window upstairs. Besides this a dress and two hats were destroyed. The damage in each case was small.

MONTPELIER

The Maxim fire truck, which the supply committee of Montpelier city council contracted for last April and which arrived Friday afternoon, was tested on three elevations Friday afternoon and evening. One of them was to go up College to Main street and make the turn up Main and then continue up the hill, which it did with about 1,800 pounds load. It then continued to the town farm, where it was turned around and after making a run to Barre to carry Deputy Fire Marshal A. G. Preble home it returned to Montpelier and went up Wheelock street, which is considered as hard a hill as there is in the city. Both these hills were made without trouble in spite of the fact that Wheelock street had been refinished Thursday. In the evening the machine went to the James Pembroke place with equal ease, another run, and made it with good speed. To-day other tests will be made.

Mr. and Mrs. Thomas Bradlee of Burlington called in the city yesterday afternoon.

Mr. and Mrs. M. B. Jones and son of Boston were in town yesterday. Mr. Jones is an attorney for the New England Telephone & Telegraph company.

Mrs. C. W. Maxim and daughter accompanied their husband and father here on the trip to deliver the new fire truck.

Harry A. Black, secretary of state, last evening received the report of a four-year-old Ross child being killed in St. Johnsbury by the automobile of Louis Cheney of Barnet. The accident happened in the late afternoon. The driver of the machine was going slowly and it is claimed that the child stepped in front of the machine. An investigation will follow.

J. Raymond Allen left Friday afternoon for Springfield, Mass., where his marriage to Miss Marion Sandman was planned to take place at 9 o'clock this morning. Lieut. and Mrs. L. A. White left also to attend the wedding. They were recently married. Mrs. White is a sister of Mr. Allen. After their wedding trip the newlyweds will reside at 15 Cliff street in Montpelier.

R. A. Sumner has sold to C. H. Thompson his interest in the Vermont and Quebec Power company and has resigned as clerk of both corporations.

James B. Estee was at White River Junction Friday attending an executive meeting of the state fair association.

M. L. Hamilton, who has been making the audit under appointment of the governor, of the state treasurer and auditor of accounts office, left this morning for New York and will return Monday to meet Thomas H. Cave, jr., the deputy treasurer, relative to certain matters in connection with recommendations in the bookkeeping system. He will then go to his home in Hartford and forward his report to the governor, which will not be materially different, except in recommendations, from that of last year, it is understood. Some changes to bring the two systems closer together have been worked upon while he has been here.

Miss Jessie Watson is taking a vacation from the state treasurer's office. Miss Gladys MacMillan is taking one from the industries office. The latter, with her mother, has gone to Malone, N. Y., to visit.

The Winoski club, Inc., of Winoski, has filed articles of association in the secretary of state's office to conduct a social, civic and athletic club in that village. The papers are signed by G. H. Norton, J. J. Kelcher, J. A. Erwin, C. A. Bigelow and J. R. Stackpole.

Water Commissioner M. G. Ferry is planning in a week or so to commence the dredging of the lower pond in Berlin, from which Montpelier gets its water supply. This pond has not been cleared out for 11 years, so the channel has been filled up considerably, with the result that there is not as much water retained as usual.

Henry M. Perrin of Barre has been appointed administrator, de bonis non, of the estate of J. Edward Perrin, late of Berlin, while George K. Perrin of Berlin has been appointed administrator of the estate of Amanda C. Perrin, late of Berlin. Both appointments are made to straighten out a title. Alexander J. Stewart of Barre has been appointed guardian of C. Wendell Lundgren, a minor, living in Barre.

BETHEL

Mr. and Mrs. Charles Hayes and son of Philadelphia were at C. D. Cushing's Thursday.

Mrs. Lillian Sanborn and her son, Cyrus Ashton Sanborn, of Rochester, N. H., were here Thursday to call on Mrs. Mary Sanborn at the sanatorium. Mr. Sanborn has done five years' archeological work in Egypt for the Harvard expedition and resumes that work next week, after the summer's rest.

Arthur Porter of Barnard, while employed at the lumber mill of W. F. Davis & Son in that town last Thursday, sustained a gash on a thumb from the saw and was brought here in the Davis car and treated by Dr. E. C. Burrell.

Mrs. Clayton W. Potter, aged 78 years, making a dooryard call on Mrs. H. H. Shepard, a neighbor, yesterday stepped backwards over a bank and fell heavily, breaking her right arm near the elbow joint. Dr. E. C. Burrell took her to the Randolph sanatorium, where the fracture was reduced and she is as comfortable as possible at her home on South Main street.

N. L. Sheldon of Boston is spending part of his vacation with his sister, Mrs. G. A. Marsh.

RAILWAY OWNED BY CANADA.

Sale of Dominion's Lines in United States Opposed.

New York is supplying Ottawa with "news." The Wall Street Journal publishes the statement that Canada is contemplating the sale of all the Dominion railway lines situated in the United States. The Ottawa Citizen points out that such a policy would involve serious considerations. The Dominion trackage in United States territory is over 2,000 miles, the Grand Trunk being responsible for the greater portion, while the Canadian Northern contributes 218 miles to the total. The part of this mileage deemed to be the most important is the double-tracked Grand Trunk Western, which runs approximately 350 miles from Toronto to Chicago, although the eastern connections and control of the Central Vermont, added to leaves, constitute the Portland seaboard route.

The Citizen regards the present situation as somewhat of an anomaly. It directs attention to the fact that, while the Dominion controls or owns the lines, the workers are subject to the wage adjustments of the United States government, or of the various arbitration or other commissions which decide such matters. Automatically wages are increased on Canadian railways when they are raised on the United States side.

There is, apparently, no official confirmation at Ottawa of the New York report, but, as the Citizen sets forth, if there is any truth in it, the subject is one that—aside from all considerations of public or private ownership—should be discussed on its merits and with a view to its possible effects on transportation rates, freight tariffs and wages. Before any action is taken there should be the fullest and most careful consideration. It will need strong reasons to justify such a proposition.

Experts from other states told yesterday's gathering of state orchard men and women that the farm was apparently ideally located for apple culture, so that the prospect of the first considerable crop excites widespread interest in the success of the experiment.

Rutland county, of course, will probably never equal the favored districts of the west or perhaps the Champlain valley and Grand Isle acreages, but there are distinct possibilities hereabouts and some large plantings are likely, in this favorable year, to develop results that will count for some thing.

No sensible man advises a dairy farmer, who knows his business and is making a success of it, to sell his cows and go to planting apple trees, but certainly apples, as a cash crop, auxiliary to or even paramount over regular and routine farming, is something that well repays investigation and experiment.

Rutland county apples are likely to be heard from in larger markets in the course of the next few years.—Rutland Herald.

Good Man to Receive Complaints of Passengers.

Most blind and deaf people are not nearly so sensitive about their afflictions as we think they are. The Deaf Times, for instance, tells this story:

"The railway chairman was explaining his reorganization of the staff and came to Spriggs. The chief shareholder gasped. 'Spriggs! What on earth can he do? Why, he is so deaf that he can't hear thunder. What post have you given him?'

"I think you will agree," returned the chairman, stiffly, "that the directors understand their business thoroughly. Mr. Spriggs will attend each day and hear all complaints from passengers."—Pearson's Weekly.
